Hi Janelle:

Please review the information I have provided. If all seems in place, please forward the attached information to US Ecology (Signed Waste Profile Sheet, NFB Site Disposal Procedures and two soil data results tables). Also, please ensure that Joe Weismann (joe.weismann@usecology.com), Tim Curtin (Tim.Curtin@usecology.com), Frank, Lyndsey and I are copied.

Thanks

I am able to edit other fields. Just not the generator field which does not have the gray field. So that must be it. I have to print and write it in. Are there any revisions that either of you see?

I believe it is because it is in protected view. If you hit the enable editing button at the top of the page you should be able to type freely.

Subject: US Ecology Waste Profile

Importance: High

Good Afternoon:

Attached is the Waste Profile Sheet along with our disposal procedure. I just updated the waste type ratios and referenced the disposal procedure. I tried to type in my generator info and when I clicked on the cell it brought me up top to the "Profile Tracking #" cell. Please let me know how to finalize the sheet so we can forward to US Ecology. I still need to update the data results to go along with the package.

Thanks

Eric and Frank,

Here is the waste profile for NFB. It is pretty generic so just double check that everything is ok prior to signing it. We just need to figure out which analytical we are including with it when we send it in.

Thx,

Janelle
